## ABOUT ME

A data-driven developer and final-year Computer Science student specializing in AI & Data Science. I apply my analytical background to building clean, efficient, and responsive full-stack applications. My experience includes developing interactive user interfaces in React and engineering robust back-ends with Django, with a focus on API integration and user authentication.

## TECHNICAL SKILLS

- HTML, CSS (Tailwind CSS)
- JavaScript, CesiumJS
- React.js
- Node.js
- Django & Django REST Framework
- MySQL (Beginner)
- Express.js
- Python (Intermediate)
- C/C++ (Beginner)
- JSON
- Microsoft Office

## PROJECTS

### • EMOTION DETECTION FROM RAW AUDIO SIGNALS

Developed a Machine Learning model to detect human emotions from raw voice recordings without relying on speech-to-text conversion, enabling language-independent emotion analysis.

**Tech Stack : Tensorflow/Keras, CNN/LSTM**

### • CAREER PATH RECOMMENDATION SYSTEM (HACKATHON PROJECT - KPR COLLEGE)

Developed a Machine learning model using **BERT** to recommend suitable career paths based on user interests. The BERT Model is fine-tuned for semantic similarity to match student preferences with relevant career streams.

**Tech Stack : BERT(ML Model), React.js (Frontend)**

### • PREDICTING NEXT BALLON D'OR WINNER

Trained **XGBoost** models to predict Ballon d'Or and UCL winners, boosting recall by 300% using **SMOTE-ENN**. Manually collected, cleaned, and merged 15 seasons of player, league, and UCL stats into a 50,000+ row master dataset. Engineered novel "narrative" features (Trophy\_Impact\_Score, Big\_Game\_Score) to statistically model a winning season. Successfully identified and fixed "target leakage" and "lazy model" behavior to build reliable, predictive models.

**Tech Stack : XGBoost model, Scikit-learn, Feature Engineering.**

## EDUCATION

**DR. M.G.R Educational and Research Institute**

B. Tech CSE - DS(AI)

CGPA - 8.4 (5<sup>th</sup> Sem)

## CERTIFICATIONS

- Meta's Backend Developer Certificate from **Coursera**
- Python for Data Science from **NPTEL**
- Cloud Application Developer from **IBMCE**
- Cognos Analytics on Cloud from **IBMCE**
